- A strong affinity with product design and visual interaction.
- Bachelors degree in computer graphics, motion design, or 3D modeling/animation.
- Minimum of 2 years of related experience and/or training.
- Strong desire to constantly develop your artistic skills and to learn new techniques
- Highly skilled in the CC platform.
- Excellent knowledge of 3D rendering and visual effects.
- Strong visual and conceptual skills in 2D and 3D.
- A great sense for image composition and cinematography
- A team-player.
- Good English skills are mandatory.

### WHAT DO WE OFFER?

- Growing and inspiring design agency.
- Challenging projects for national and international clients
- A large amount of variation and independence.
- An enthusiastic team of colleagues in an inspiring high-tech environment.
- Attractive employment conditions.
